

## UNDERGROUND MANAGER

### APEX MINERALS - WILUNA OPERATION

ASX listed Apex Minerals NL (ASX Code: AXM) commenced re-developing the Wiluna Operation during the second half of 2008.

The Wiluna Operation is the centre point of Apex's regional consolidation strategy in Western Australia's North Eastern Goldfields due to its extensive resources and existing gold treatment plant, mine and infrastructure. The gold treatment plant is capable of treating 1Mtpa of free milling and refractory ores (using the BIOX process) and will be the central treatment facility for ore proposed to be mined from the Wilson's and Youanmi projects.

Apex has commenced production and is undertaking mining activities as owner operator.
